[University's Career Development Center Hosts STEM Career Expo](#)

The career expo offered students in science, technology, engineering, and math (STEM) f

MARCH 8, 2023

By Erik Parker '25 and Aliza Johns '23

Hundreds of students attended the University's recent STEM career expo.

The University of New Haven's Career Development Center recently hosted representativ

The expo, sponsored by Bioinfo Systems, brought more than five dozen employers to the

Below, two students who attended the career expo reflect on the experience.

Erik Parker '25

At the STEM Career Expo, I was taken aback by how many different companies had come

I was particularly impressed by the variety of fields represented, with companies from the

At the expo, I had the opportunity to talk to many professionals from different fields and

One of the things that stood out to me was how approachable and friendly everyone was

I left the expo feeling inspired and motivated to pursue my passions and to make the most of my college experience.

Members of the University's Career Development Center were excited to support student success.

Aliza Johns '23

As an active member of the campus community – I am the senior class president, Society of Women Engineers member, and a member of the University's Career Development Center.

I don't have a specific career path, but I know I want to make a difference in the world. That's why I'm interested in the STEM Career Expo.

Each year, the University hosts many different companies to attend the STEM Career Expo. In Spring of 2021, I was able to find an internship through the Expo. I connected with AVA and was able to intern at their company.

This year, I was looking for a full-time position, and I reached out to several companies at the Expo. I was able to find a full-time position at AVA.

Erik Parker '25 is an electrical and computer engineering major at the University. Aliza Johns '23 is a psychology major at the University.
